Summary

Front-End React Developer with strong skills in HTML, CSS, JavaScript, Tailwind CSS, and React.js. Experienced in building responsive, user-friendly web applications with reusable components and REST API integration. Familiar with Node.js, Express.js, and MongoDB, with a passion for creating modern web experiences and continuously improving technical and problem-solving skills within collaborative development teams.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, TypeScript

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, VS Code, Postman

Concepts: REST APIs, Responsive Web Design, Component-Based Architecture, Hooks, State Management

Experience

Front-End React Developer Intern | Digital Egypt Pioneers Initiative (DEPI)

Nov 2025 – July 2026

- Developed responsive and interactive user interfaces using React.js, Hooks, Tailwind CSS, and modern JavaScript.
- Built reusable components and integrated RESTful APIs for scalable frontend applications.
- Contributed to developing **Roomify**, a full-stack furniture e-commerce platform, implementing authentication flows, shopping features, responsive UI, and API integration.
- Collaborated with team members using Git and GitHub following Agile development practices.

Projects

Roomify

[GitHub](#)

Developed a production-style full-stack furniture e-commerce platform using React, Express.js, MongoDB, and Node.js. Implemented secure authentication with Google OAuth and JWT, Stripe payment integration, Cloudinary image management, AI chat assistant, email verification, password recovery, wishlist functionality, role-based dashboards for admins and delivery staff, and interactive 3D product viewing. Organized the project as a scalable monorepo with separate frontend and backend applications.

EventX Studio

[GitHub](#)

Designed and developed a full-stack event management platform for creating and managing events and ticket sales. Built with React, Node.js, Express, MongoDB, JWT authentication, and Tailwind CSS.

Movie Search App

[GitHub](#)

Developed a responsive movie search application using React.js and Tailwind CSS with API integration for searching and displaying movie information.

Education

B.Sc. in Data Science | Alexandria University

Oct 2023 – Present

- GPA: 3.51 / 4.00

Courses

- Front-End React Development — DEPI (Nov 2025 – Present)
- Presentation Skills — DEPI (Dec 2025)
- Full-Stack Development Fundamentals — MAIM Digital Solutions (Jul – Sep 2025)
- Node.js & Express Fundamentals — codeZone (May 2025)
- HTML & CSS Full Course — SuperSimpleDev (Jan 2025)

Volunteer Experience

Volunteer | Resala Charity Organization

- Participated in Baraem and Mojadidon charity convoys.
- Assisted in organizing and distributing aid packages to families in need.
